

# PENRITH CITY COUNCIL

## NOTICE OF DETERMINATION

### DEVELOPMENT APPLICATION DETAILS

Application number:	Mod22/0057
Description of development:	Modification to Approved Signage on Building 3A in the Oakdale West Estate
Classification of development:	Class 10b
Name of Applicant:	Goodman Property Services (Aust) Pty Ltd

### DETAILS OF THE LAND TO BE DEVELOPED

Legal description:	Lot 108 DP 1262310
Property address:	2 - 24 Emporium Avenue, KEMPS CREEK NSW 2178

### DECISION OF CONSENT AUTHORITY

In accordance with Sections 4.18(1) (a) and 4.54 of the Environmental Planning and Assessment Act 1979, consent is granted subject to the conditions listed in attachment 1.

Please note that this consent will lapse on the expiry date unless the development has commenced in that time.

Decision	Approve
Date from which consent operates	15 April 2021
Date the consent expires	15 April 2026
Date of this decision	1 April 2022 as amended on 31 March 2022 under Section 4.55 of the Environmental Planning and Assessment Act.

### POINT OF CONTACT

If you have any questions regarding this determination you should contact:

Assessing Officer:	Phillip Doy
Contact telephone number:	+61247327654

## NOTES

---

### **Reasons**

The conditions in the attached schedule have been imposed in accordance with Section 4.17 of the Environmental Planning and Assessment Act 1979 as amended.

### **Conditions**

Your attention is drawn to the attached conditions of consent in attachment 1.

### **Certification and advisory notes**

You should also check if this type of development requires a construction certificate in addition to this development consent.

It is recommended that you read any Advisory Note enclosed with this notice of determination.

### **Review of determination**

The applicant may request Council to review its determination pursuant to Division 8.2 of the Environmental Planning and Assessment Act 1979 within twelve months of receiving this Notice of Determination.

These provisions do not apply to designated development, complying development or crown development pursuant to Section 8.2(2) of the Environmental Planning and Assessment Act 1979.

### **Appeals in the Land and Environment Court**

The applicant can appeal against this decision in the Land and Environment Court within twelve months of receiving this Notice of Determination.

There is no right of appeal to a decision of the Independent Planning Commission or matters relating to a complying development certificate pursuant to clause 8.6(3) of the Environmental Planning and Assessment Act 1979.

### **Designated development**

If the application was for designated development and a written objection was made in respect to the application, the objector can appeal against this decision to the Land and Environment Court within 56 days after the date of this notice.

If the applicant appeals against this decision, objector(s) will be given a notice of the appeal and the objector(s) can apply to the Land and Environment Court within 56 days after the date of this appeal notice to attend the appeal and make submissions at that appeal.

### **Sydney Western City Planning Panels**

If the application was decided by the Sydney Western City Planning Panel, please refer to Section 2.16 of the Environmental Planning and Assessment Act, 1979 (as amended) for any further regulations.

# ATTACHMENT 1: CONDITIONS OF CONSENT

## General

- 1 The development must be consistent with the stamped approved plans issued by Council, the application form and any supporting information received with the application, except as may be amended in red on the approved plans and by the following conditions.

Drawing Title	Prepared By	Drawing No.	Revision	Date
<u>Architectural Plans, all Job No. 20188</u>

- Waste Management Plan, prepared by SLR and dated 10 November, 2020, and
- Lot 3A Civil Report, prepared by AT&L and dated 17 March, 2021.

***As amended on 16 July 2021 and 2 December 2021 and 15 April 2021 and 1 April 2022 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.***

**2 The development shall not be used or occupied until an Occupation Certificate has been issued.**

3 The approved operating hours are 24 hours a day, 7 days a week.

- 4 All materials and goods associated with the use shall be contained within the building at all times.
- 5 **Prior to the issue of an Occupation Certificate**, a lighting system shall be installed for the development to provide uniform lighting across common areas and driveways. Exterior lighting shall be located and directed in such a manner so as not to create a nuisance to surrounding land uses. The lighting shall be the minimum level of illumination necessary for safe operation. The lighting shall be in accordance with AS 4282 "Control of the obtrusive effects of outdoor lighting" (1997).
- 6 The finishes of the building are to be maintained at all times and any graffiti or vandalism immediately removed/repaired.
- 7 A **Construction Certificate** shall be obtained prior to commencement of any building works.
- 8 **Prior to the issue of an Occupation Certificate**, the proposed lot shall be registered.
- 9 Relevant conditions within State Significant Development Approval SSD-7348 Oakdale West Approval (as modified) shall be complied with at all times.
- 10 The parking directory signage shall be located entirely within the proposed lot boundaries.
- 11 The installation of the approved signage shall be carried out strictly in accordance with the manufacturer's specifications. Any wiring or installation fixtures associated with the signage or internal illumination shall be contained wholly within the body of the signage and not be visible from the public domain.
- 12 **Prior to the issue of an Occupation Certificate**, detailed signage plans shall be provided to Penrith City Council for approval. The signage plans shall detail the business identification signage which is indicative at this stage.

## Environmental Matters

- 13 Erosion and sediment control measures shall be installed **prior to the commencement of works on-site**. The erosion and sediment control measures are to be maintained in accordance with the approved erosion and sediment control plans for the development and the Department of Housing's "Managing Urban Stormwater: Soils and Construction" 2004.

Certification that the erosion and sediment control measures have been installed in accordance with the approved erosion and sediment control plans for the development and "Managing Urban Stormwater: Soils and Construction 2004" shall be obtained and issued a minimum 2 days before any other site works are to commence, including earthworks and clearing of the site.

The approved sediment and erosion control measures are to be installed **prior to and maintained throughout the construction phase of the development until the land, that was subject to the works, has been stabilised**. These measures shall ensure that mud and soil from vehicular movements to and from the site does not occur during the construction of the development.

- 14 Mud and soil from vehicular movements to and from the site must not be deposited on the road.
- 15 No fill material shall be imported to the site until such time as a Validation Certificate (with a copy of any report forming the basis for the validation) for the fill material has been submitted to, considered and

approved by Council. The Validation Certificate shall:

- state the legal property description of the fill material source site,
- be prepared by an appropriately qualified person (as defined in Penrith Development Control Plan 2014) with consideration of all relevant guidelines (e.g. EPA, ANZECC, NH&MRC), standards, planning instruments and legislation,
- provide details of the volume of fill material to be used in the filling operations,
- provide a classification of the fill material to be imported to the site in accordance with the Environment Protection Authority's "Environmental Guidelines: Assessment, Classification & Management of Non-Liquid Wastes" 1997, and
- (based on the fill classification) determine whether the fill material is suitable for its intended purpose and land use and whether the fill material will or will not pose an unacceptable risk to human health or the environment.

Note: Penrith Development Control Plan 2014 defines an appropriately qualified person as "a person who, in the opinion of Council, has a demonstrated experience, or access to experience in hydrology, environmental chemistry, soil science, eco-toxicology, sampling and analytical procedures, risk evaluation and remediation technologies. In addition, the person will be required to have appropriate professional indemnity and public risk insurance."

If the Principal Certifying Authority or Penrith City Council is not satisfied that suitable fill materials have been used on the site, further site investigations or remediation works may be requested. In these circumstances the works shall be carried out prior to any further approved works.

- 16 Where a building is to take place on any land that is to be filled, such filling is to be compacted in accordance with AS3798-1996. Certification is to be submitted to the Principal Certifying Authority by a Geotechnical Engineer verifying that the work has been undertaken prior to the commencement of the construction of any building.

If Penrith City Council is not the Principal Certifying Authority, a copy of the certification is to be submitted to Council for their reference.

- 17 All construction waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays/bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.
- 18 All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of in accordance with the approved waste management plan.

Waste materials not specified in the approved waste management plan are to be disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

- 19 Noise levels from the premises shall not exceed the relevant noise criteria detailed in 'Oakdale West Estate (OWE) - Building 3A Noise and Vibration Assessment' (19440-3A Ver. B) prepared by Wilkinson Murray dated 11/12/2020. The recommendations provided in the above-mentioned acoustic report shall be implemented and incorporated into the design and construction of the development, and shall be shown on

plans accompanying the Construction Certificate application. A certificate is to be obtained from a qualified acoustic consultant certifying that the building has been constructed to meet the noise criteria in accordance with the approved acoustic report. This certificate is to be submitted to the Principal Certifying Authority **prior to the issue of an Occupation Certificate**.

The provisions of the Protection of the Environment Operations Act 1997 apply to the development, in terms of regulating offensive noise.

- 20 **Prior to the issue of a Construction Certificate**, submit to Council for assessment copies of the Noise Agreements that have been created between Receivers N3, N4 and N5 (referenced in 'Oakdale West Estate - Building 3A Noise and Vibration Assessment (19440-3A Ver. B) prepared by Wilkinson Murray dated 11/12/2020) and the Applicant. Should noise levels required to be achieved or similar be listed in the documents, correspondence from a suitably qualified acoustic consultant is required to confirm that noise levels at N3, N4 and N5 will be met during both construction and operation phases of the development.

## **BCA Issues**

- 21 Access and sanitary facilities for persons with disabilities are to be provided and maintained in accordance with the requirements of the Building Code of Australia and AS 1428 "Design for Access and Mobility". Details of compliance are to be provided in the relevant plans and specifications accompanying the Construction Certificate application.
- 22 All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:
- (a) complying with the deemed to satisfy provisions, or
  - (b) formulating an alternative solution which:
    - complies with the performance requirements, or
    - is shown to be at least equivalent to the deemed to satisfy provision, or
  - (c) a combination of (a) and (b).

It is the owner's responsibility to place on display, in a prominent position within the building at all times, a copy of the latest fire safety schedule and fire safety certificate/ statement for the building.

## **Health Matters and OSSM installations**

- 23 The rainwater tank must be maintained so as not to create a nuisance and it must be protected against mosquito infestation.

## Utility Services

- 24 A Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water. The application must be made through an authorised Water Servicing Coordinator. Please refer to “Your Business” section of Sydney Water’s website at [www.sydneywater.com.au](http://www.sydneywater.com.au) then the “e-developer” icon, or telephone 13 20 92.

The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority **prior to the issue of an Occupation Certificate.**

- 25 **Prior to the issue of a Construction Certificate**, a written clearance is to be obtained from Endeavour Energy stating that electrical services have been made available to the development or that arrangements have been entered into for the provision of services to the development.

In the event that a pad mounted substation is necessary to service the development, Penrith City Council shall be consulted over the proposed location of the substation before the Construction Certificate for the development is issued as the location of the substation may impact on other services and building, driveway or landscape design already approved by Council.

- 26 **Prior to the issue of a Construction Certificate**, the Principal Certifying Authority shall be satisfied that telecommunications infrastructure may be installed to service the premises which complies with the following:

- The requirements of the Telecommunications Act 1997;
- For a fibre ready facility, the NBN Co’s standard specifications current at the time of installation; and
- For a line that is to connect a lot to telecommunications infrastructure external to the premises, the line shall be located underground.

Unless otherwise stipulated by telecommunications legislation at the time of construction, the development must be provided with all necessary pits and pipes, and conduits to accommodate the future connection of optic fibre technology telecommunications.

**Prior to the issue of an Occupation Certificate**, written certification from all relevant service providers that the telecommunications infrastructure is installed in accordance with the requirements above and the applicable legislation at the time of construction, must be submitted to the Principal Certifying Authority.

## Construction

27 Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

28 Prior to the commencement of construction works:

(a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:

- a standard flushing toilet connected to a public sewer, or
- if that is not practicable, an accredited sewage management facility approved by the council, or
- alternatively, any other sewage management facility approved by council.

(b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with the appropriate professional standards. All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.

(c) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:

- must preserve and protect the building from damage, and
- if necessary, must underpin and support the building in an approved manner, and
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished. The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this condition, whether carried out on the allotment of land being excavated or on the adjoining allotment of land, (includes a public road and any other public place).

(d) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:

- if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
- the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
- any such hoarding, fence or awning is to be removed when the work has been completed.

29 Construction works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm if inaudible on neighbouring residential premises, otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy and that do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

## Engineering

- 30 All roadworks, stormwater drainage works, signage, line marking, associated civil works and dedications required to effect the consented development shall be undertaken by the applicant at no cost to Penrith City Council.
- 31 An Infrastructure Restoration Bond is to be lodged with Penrith City Council for development involving works around Penrith City Council's Public Infrastructure Assets. The bond is to be lodged with Penrith City Council **prior to commencement of any works on-site or prior to the issue of any Construction Certificate**, whichever occurs first. The bond and applicable fees are in accordance with Council's adopted Fees and Charges.

An application form together with an information sheet and conditions are available on Council's website.

Contact Penrith City Council's Asset Management Department on 4732 7777 or visit Penrith City Council's website for more information.

- 32 **Prior to the issue of any Construction Certificate**, a Section 138 Roads Act application, including payment of application and inspection fees together with any applicable bonds, shall be lodged with and approved by Penrith City Council (being the Roads Authority for any works required in a public road). These works may include but are not limited to the following:
- a) Vehicular crossings (including kerb reinstatement of redundant vehicular crossings)
  - b) Concrete footpaths and or cycleways
  - c) Road opening for utilities and stormwater (including stormwater connection to Penrith City Council roads and other Penrith City Council owned drainage)
  - d) Road occupancy or road closures (including temporary construction work zones and tower crane operation)
  - e) The placement of hoardings, structures, containers, waste skips, signs etc. in the road reserve
  - f) Temporary construction access

All works shall be carried out in accordance with the Roads Act approval, the development consent, including the stamped approved plans, and Penrith City Council's specifications, guidelines and best engineering practice.

Contact Penrith City Council's Asset Management Department on 4732 7777 or visit Penrith City Council's website for more information.

Note:

- Where Penrith City Council is the Certifier for the development, the Roads Act approval for the above works may be issued concurrently with the Construction Certificate.
- Separate approval may be required from Transport for NSW for classified roads.
- All works associated with the Roads Act approval must be completed **prior to the issue of any Occupation Certificate**.

- 33 The stormwater management system shall be consistent with plans lodged for development approval, prepared by AT&L, reference number 15-272, revision C, dated 17.03.2021.

**Prior to the issue of any Construction Certificate**, the Certifier shall ensure that the stormwater

management system has been designed in accordance with Penrith City Council's Stormwater Drainage Specification for Building Developments and Water Sensitive Urban Design (WSUD) Policy.

Engineering plans and supporting calculations for the stormwater management system are to be prepared by a suitably qualified person and shall accompany the application for a Construction Certificate.

- 34 **Prior to the issue of any Construction Certificate**, the Certifier shall ensure that vehicular access, circulation, maneuvering, pedestrian and parking areas associated with the subject development are in accordance with Penrith Development Control Plan 2014, AS2890.1, AS2890.2 and AS2890.6.
- 35 **Prior to the commencement of any works on-site or prior to the issue of any Construction Certificate**, whichever occurs first, a Construction Traffic Management Plan (CTMP) shall be submitted to Penrith City Council's Asset Management Department for endorsement. The CTMP shall be prepared by a suitably qualified consultant with appropriate training and certification from Transport for NSW. The CTMP shall include details of any required road closures, work zones, loading zones and the like. Approval of the CTMP may require approval of the Local Traffic Committee. Please contact Council's Asset Management Department on 4732 7777 and refer to Council's website for a copy of the Temporary Road Reserve Occupancy Application Form.
- 36 **Prior to commencement of any works associated with the development**, a Traffic Control Plan, including details for pedestrian management, shall be prepared in accordance with AS1742.3 Traffic Control Devices for Works on Roads and the Transport for NSW (TfNSW) publication Traffic Control at Worksites, and certified by an appropriately accredited TfNSW Traffic Controller.

Traffic control measures shall be implemented during the construction phase of the development in accordance with the certified plan. A copy of the plan shall be available on-site at all times.

Note:

- A copy of the Traffic Control Plan shall accompany the Notice of Commencement to Penrith City Council.
- Traffic control measures may require road occupancy/road closure approvals issued under Section 138 of the Roads Act by Penrith City Council **prior to the issue of any Construction Certificate**.

- 37 **Prior to the issue of any Occupation Certificate**, the Principal Certifier shall ensure that all works associated with a Section 138 Roads Act approval or Section 68 Local Government Act approval have been inspected and signed off by Penrith City Council.
- 38 **Prior to the issue of any Occupation Certificate**, Works As Executed drawings, final operation and maintenance management plans and any other compliance documentation for the stormwater management system shall be submitted to the Principal Certifier in accordance with Penrith City Council's Engineering Construction Specification for Civil Works, Stormwater Drainage Specification for Building Developments and WSUD Technical Guidelines.

An original set of Works As Executed drawings and copies of the final operation and maintenance management plans and compliance documentation shall also be submitted to Penrith City Council with notification of the issue of the Occupation Certificate where Penrith City Council is not the Principal Certifier.

- 39 **Prior to the issue of any Occupation Certificate**, the Principal Certifier shall ensure that the:
- a) Stormwater management systems (including water sensitive urban design measures)
  - b) Overland flowpath works

- have been satisfactorily completed in accordance with the approved Construction Certificate and the requirements of this consent;
- have met the design intent with regard to any construction variations to the approved design, and;
- Any remedial works required to be undertaken have been satisfactorily completed.

Details of the approved and constructed system/s shall be provided as part of the Works As Executed drawings.

- 40 **Prior to the issue of any Occupation Certificate**, directional signage and line marking shall be installed indicating directional movements and the location of customer parking to the satisfaction of the Principal Certifier.
- 41 The stormwater management system shall continue to be operated and maintained in perpetuity for the life of the development in accordance with the final operation and maintenance management plan.

Regular inspection records are required to be maintained and made available to Penrith City Council on request. All necessary improvements are required to be made immediately upon awareness of any deficiencies in the stormwater management systems.

- 42 **Prior to the issue of any Construction Certificate**, the Principal Certifying Authority shall ensure that the plans include dimensions of driveways, ramps, aisles, parking spaces, columns and obstructions, car park headroom, accessible parking, bicycle parking with end of journey facilities and accessible pedestrian paths of travel complying with AS 2890, AS 1428, Penrith Development Control Plan (DCP) Chapter 10 Transport, Access and Parking and Council 'Industrial, Commercial and Mixed-use Waste Management Guideline'. These details shall include but not limited to:

1. Minimum driveway, ramp, aisle and car space width and lengths in accordance with DCP C10, AS2890.1, AS2890.2 and AS2890.6.
2. Swept turn path clearances at driveways (including accordance with AS 2890.1 Table 2.2 and Figure 2.9). External driveway access turning paths are to be provided and be at least 0.3 metres clear of driveway edges, parking and road centrelines and at least 300mm clear of kerbs and medians. Internal aisle and car park manoeuvring area vehicle turning paths are to be at least 0.3 metres clear of obstructions including to walls, bollards and other obstructions.
3. Additional car space clearances from obstructions (including accordance with AS 2890.1 B4.1 minimum additional clearance of 0.3 metres).
4. Sight distance requirements in accordance with AS 2890.1 and/or AS 2890.2 Figure 3.2 at access driveways and Figure 3.3 Minimum sight lines for pedestrian safety.
5. Accessible pedestrian paths of travel from all car parking spaces to the building points of entry.
6. Separate accessible pedestrian paths of travel from the fronting roadway footpaths to access the building points of entry.
7. Complying numbers of secure bicycle parking, end of journey facilities, change rooms, showers, and lockers are provided at convenient locations in accordance with DCP C10, AS 2890.3 Bicycle Parking Facilities and Planning Guidelines of Walking and Cycling (NSW Government 2004).

- 43 All car spaces and loading areas are to be sealed/line marked and dedicated for the parking of vehicles only and not be used for storage of materials/products/waste materials etc.

- 44 Sub-leasing of car parking spaces is not permitted by this Consent.

- 45 **Prior to the issue of an Occupation Certificate**, appropriate signage, visible from the public road and on-site shall be installed to reinforce designated vehicle circulation and to direct staff/delivery vehicle drivers/service vehicle drivers/ambulances/visitors to on-site parking, delivery and service areas to the

satisfaction of the Principal Certifying Authority.

- 46 The required sight lines around the driveway entrances are not to be compromised by landscaping, fencing or signage.
- 47 All vehicles are to enter/exit the site in a forward direction.

## Landscaping

- 48 All landscape works are to be constructed in accordance with the stamped approved plans and Chapter C6 Landscape Design of Penrith Development Control Plan 2014.

Landscaping shall be maintained:

- in accordance with the approved plan, and
- in a healthy state, and in perpetuity by the existing or future owners and occupiers of the property.

If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity as the vegetation which died or was removed.

- 49 The approved landscaping for the site must be constructed by a suitably qualified and experienced landscape professional.
- 50 Upon completion of the landscape works associated with the development and **prior to the issue of an Occupation Certificate** for the development, an Implementation Report must be submitted to the Principal Certifying Authority attesting to the satisfactory completion of the landscaping works for the development. The report is to be prepared by a suitably qualified and experienced landscape professional.

An Occupation Certificate should not be issued until such time as a satisfactory Implementation Report has been received. If Penrith City Council is not the Principal Certifying Authority, a copy of the satisfactory Implementation Report is to be submitted to Council together with the Occupation Certificate for the development.

- 51 All plant material associated with the construction of approved landscaping is to be planted in accordance with Penrith Development Control Plan 2014.
- 52 All landscape works are to meet industry best practice and the following relevant Australian Standards:
- AS 4419 Soils for Landscaping and Garden Use,
  - AS 4454 Composts, Soil Conditioners and Mulches, and
  - AS 4373 Pruning of Amenity Trees.
- 53 No trees are to be removed, ringbarked, cut, topped or lopped or wilfully destroyed (other than those within the proposed building footprint or as shown on the approved plans) without the prior consent of Penrith City Council and in accordance with State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017.
- 54 All required fencing and retaining walls shall be at the full cost of the property owner/developer. The materials and colours of any new fencing or retaining walls shall match or complement the external materials of the development. Retaining walls are to be of masonry construction.

## Subdivision

55 **Prior to the issue of the Subdivision Certificate**, the following is to be submitted:

An original plan of subdivision and two (2) copies of the plan. The plan of subdivision must indicate, where relevant:

- All drainage easements, rights of way, restrictions and covenants.
- All proposed dedications of roads/drainage/public reserve, which are to be undertaken at no cost to Penrith City Council.

The following information is to be shown on one (1) copy of the plan.

- The location of all buildings and/or other permanent improvements shall comply with any statutory boundary clearances or setbacks as defined by the Building Code of Australia and Council's resolutions.
- All existing services are wholly contained within the lot served and/or covered by an appropriate easement.

**Prior to lodgement of the Subdivision Certificate Application, street address numbering must be obtained/approved by Penrith City Council's Rates Team. Proposed street addresses can be forwarded to [council@penrith.city](mailto:council@penrith.city) for approval.**

56 A Surveyors Certificate is to be lodged with the application for a Subdivision Certificate that certifies that all pipes and services are located wholly within the property or within appropriate easements and that no services encroach boundaries.

## Section 94

57 This condition is imposed in accordance with Penrith City Section 7.12 Citywide Development Contributions Plan for Non-Residential Development. Based on the current rates detailed in the accompanying schedule attached to this Notice, **\$131,237.00 is to be paid to Council prior to a Construction Certificate being issued** for this development (the rates are subject to quarterly reviews). If not paid within the current quarterly period, this contribution will be reviewed at the time of payment in accordance with the adopted Penrith City Section 7.12 Citywide Development Contributions Plan for Non-Residential Development.

Council should be contacted prior to payment to ascertain the rate for the current quarterly period. The S7.12 invoice accompanying this consent should accompany the contribution payment. The Penrith City Section 7.12 Citywide Development Contributions Plan for Non-Residential Development may be inspected at Council's Civic Centre, 601 High Street, Penrith.

**Note:** The timing of contributions payable may be otherwise affected in accordance with Planning Circular PS20-003 dated 3 July 2020 and the associated NSW Government Ministerial Direction - Infrastructure Contributions.

## Certification

- 58 A Subdivision Certificate is to be obtained prior to the release of the linen plan of subdivision.
- 59 An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the occupation of the development.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.

- 60 All equipment washing, engine degreasing and steam cleaning shall be conducted in a wash bay approved, installed and connected to the sewer in accordance with Sydney Water's requirements.

**Inserted on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 61 Waste oil shall be stored in a covered and bunded area and regularly removed to a waste oil recycle operation.

All receipts and supporting documentation must be retained in order to verify lawful disposal and are to be made available to Penrith City Council on request.

**Inserted on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 62 All mechanical repairs shall be conducted within the workshop area which shall be provided with suitable pollution control devices that remove grease, oil, petroleum products and grime prior to discharge to the sewer system in accordance with the requirements of Sydney Water.

No mechanical work or washing shall be undertaken in any location other than the approved workshop area and internal wash bay.

**Inserted on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 63 All works and storage areas where spillages are likely to occur shall be bunded. Where Australian Standards apply, bunding construction and capacity must comply with those standards. Where Australian Standards do not apply, the size of the area to be bunded shall be calculated as being equal to 10% of the total volume of containers stored, or 110% of the largest container stored, whichever is the greater.

**Added on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 64 Only clean and unpolluted water is to be discharged into Penrith City Council's stormwater drainage system. Liquid wastes suitable for discharge to the mains sewer are to be discharged in accordance with Sydney

Water requirements.

If mains sewer is not available or if Sydney Water will not allow disposal to the sewer then a suitable waste contractor is to remove the liquid waste from the premises to an appropriate waste facility. Waste licensing requirements apply in NSW. The waste contractor and waste facility are to be licensed by the NSW Environment Protection Authority, where applicable. Reference should be made to NSW Environment Protection Authority for licensing requirements.

**Added on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 65 All manufacture and assembly associated with the use shall be conducted within the confines of the building at all times.

**Added on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 66 The spray painting booth is to comply with Australian Standards and any requirements of NSW SafeWork. The spray painting booth is to be maintained in compliance with the Australian Standards.

A suitably qualified person is to certify that the spray painting booth and associated mechanical ventilation system has been installed in accordance with the relevant specifications and Australian Standards. A Compliance Certificate confirming this is to be submitted to the Principal Certifying Authority **prior to the use of the spray painting booth.**

**Added on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**

- 67 Spray painting activities are to occur only within the approved spray booth.

**Added on 2 December 2021 under Section 4.55(1A) of the Environmental Planning and Assessment Act 1979.**
